

Technical data sheet NOVAKRYL 2+1 MS

Acrylic clearcoat*

PROPERTIES NOVAKRYL 2+1 MS - an acrylic clearcoat characterised by easy application, good flowability and quick drying which facilitates work and shortens the time in which the vehicle remains in the painting cabin. High hardness, UV resistance and weather resistance guarantee high durability, while the gloss and depth ensure an excellent appearance of the paint coating. NOVAKRYL MS is available in versions with the slow, standard or fast hardener; the selection of specific hardener depends on the application conditions. **RELATED PRODUCTS** H 5120 Hardener Standard, Fast and Slow. **THIN 850** Acrylic thinner Standard, Fast and Slow **PLUS 770** LT-04-01 Elasticity increasing agent **PLUS 750** Acrylic accelerating agent LT-04-02 **PLUS 760** Antisilicone additive LT-04-04 **THIN 890** Fade out Thinner. LT-06-05 SUBSTRATES Compatible with the majority of solvent and waterborne basecoats available on the market. **MIXING RATIO** Volume ratio Weight ratio NOVAKRYL 2+1MS 2 100 H 5120 50 1 **THIN 850** 20% 18 Apply the thinner in the amount calculated for the clearcoat. VISCOSITY O DIN 4/20°C $16 - 18 \, {\rm s}$ CONTENT OF VOLATILE ORGANIC COMPOUNDS VOC 570 g/l For ready to use mixture.

Technical Data Sheet LT-03-01 17/03/2020

APPLICATION CONDITIONS

It is recommended to apply the clearcoat at a temperature above 15° C and a humidity of no more than 80 %. Under such conditions, the cured coating can be used after no less than 14 hours.

NOTES							
*Intended for professional use only. Non-compliant with the requirements of Directive 2004/42/CE. Use in the countries of the European Union is possible only after meeting the additional requirements of Directive 1999/13/EC and domestic regulations that implement the Directives.							

OTHER INFORMATION

Registration number: 000024104.

The effectiveness of our systems results from laboratory research and many years of experience. The data contained herein meets the current knowledge about our products and their application potential. We ensure high quality, provided the user follows the instructions and the work is performed in accordance with good workmanship. It is necessary to do a test application of the product due to its potentially different reaction with different materials. We may not be held liable for defects if the final result was affected by factors beyond our control.

ADDITIONAL INFORMATION

WEIGHT QUANTITY OF COMPONENTS: 2+1+20%

CAUTION!

In order to obtain a paint coating with appropriate parameters it is very important to exactly dose the individual components.
