## CUTTER FOR MASKING FILM

P/N: 91015 (SAP No. 300008736)

### Product overview:

A cutter blade designed specifically for cutting of refinish masking materials. It efficiently cuts through all types of masking film, paper and masking tapes. The special design of the blade prevents accidental scratching of the car body and prevents injury from cutting.

### Characteristics:

- efficient cutting of masking film, paper and tape
- the shape of the blade prevents scratching and damaging the car body surface
- safe to handle; the special design prevents injury
- easy cutting of complex shapes
- features a magnet for easier storage and less risk of losing the tool

### Technical data:

	Value
Material:	Stainless steel blade in a safe plastic holder
Dimensions:	Width 75 mm; Height 45 mm
Quantity in bulk packaging:	10 pcs. in plastic blisters; 50 pcs. in a box

### Application requirements, shelf life and storage:

Store in a dry place between +0°C and +30°C. Keep indoors, away from direct sunlight. Protect against weather conditions.

#### Note:

The effectiveness of our systems results from laboratory research and many years of experience. The data contained herein meets the current knowledge about our products and their application potential. We ensure high quality, provided the user follows the instructions and the work is performed in accordance with good workmanship. It is necessary to perform a test application of the product due to its potentially different reaction with different materials. We cannot be held liable for defects where the final results were affected by factors beyond our control. NOVOL reserves the right to improve the product and modify the technical requirements, which may entail modification of the specification. This product is not hazardous if used as intended.
