WAFFLED TACK RAG

P/N: 39550 (300008374)

Product overview:

The waffled tack rag is specifically designed for removal of dust, hair, and loose particles from substrates to be coated. Thanks to a special impregnate formula the product is soaked with, it absorbs and holds dust and particles between the fibres. The product can significantly reduce the risk of inclusions and imperfections on the coating. It helps to facilitate and reduce the time of refinish process. Free from wax and silicone.

Characteristics:

- Made of high-quality cotton impregnated with a formula to trap dust and particulates;
- The waffled surface improves absorption;
- Does not dry out or stiffen;
- Leaves no marks on the surface;
- Just wipe the substrate without pressing hard;
- Does not lint;
- Flexible and effective;
- Biodegradable and environmentally friendly.

Technical data:

	Value
Material:	cotton yard + Lycra with impregnate formula
Material weight:	37.73 g/m ² (DIN-EN ISO 9073-1)
Fabric texture:	waffled
Packaging format:	Single pieces in poly bags
Quantity in bulk packaging	100 pcs. per box

Shelf life; storage and application requirements:

The product will perform best for 12 months from the production date if stored between 5°C and 45°C. Protect from freezing. For the best performance of this product, leave it at room temperature (18°C to 25°C) for 2 hours before use and use by the shelf life date.

Notice:

The effectiveness of our systems results from laboratory research and many years of experience. The data contained herein meets the current knowledge about our products and their application potential. We ensure high quality, provided the user follows the instructions and the work is performed in accordance with good workmanship. It is necessary to perform a test application of the product due to its potentially different reaction with different materials. We may not be held liable for defects if the final results were affected by factors beyond our control. NOVOL reserves the right to improve the product and modify the technical requirements, which may entail modification of the specification. This product is not hazardous if used as intended.
